

Islamic Treasury Products

About the Programme

This module provides an insight into the operational aspect of Islamic treasury activities. Throughout the module, learners will examine the structure and process of each product and the distinct features of the Islamic treasury products in the market. Shariah issues on the products will also be deliberated and discuss with the learner.

Learning Outcome

At the end of the module, learners should be able to:

- Understand the importance of treasury including its operation, function and Shariah contracts involved;

- Apply the types of treasury products accordingly to its requirement and purpose; and
- Probe the issues and challenges on treasury activities/products.
