About the Programme

CQIF Takaful brings the learners to an advanced level of understanding of the Takaful system. Learners will be exposed to the various roles played by the regulatory and supervisory authorities. CQIF Takaful will recognise the importance of a Takaful Operator’s financial analysis, audit, governance, and risk management framework. CQIF learners will be equipped with the skills required of a higher level of management of a Takaful Operator.

Learning Outcomes

At the end of the module, learners should be able to:

- Develop learner’s decision-making abilities in handling governance, audit, and risk management issues that arise in the institution;
- Demonstrate knowledge of risk management in takaful and understand the impact of Shariah contracts on credit risk, market risk and operational risk;
- Evaluate their financial performance through financial performance analysis; and
- Manage their takaful products efficiently and the risks associated with them.
